

## Pet Crematoriums Victoria, B. C.

Recent news items have cast a shadow of doubt over the integrity of all pet cremation services in the area. There is a vigorous turf war in the business and operators will stop at nothing to discredit their competitors. Some individual pet crematorium operators may be acting unethically in providing communal cremation when private cremation has been requested and paid for.

As a result of recent concerns about this industry and until an assured and ethical provider can be found Shaw Pet Hospitals will no longer offer or recommend private cremations.

Instead of private cremation we encourage pet owners to select lower cost communal cremation and to donate the cost difference to the animal charity of their choice.

For those pet owners who still want to pursue private cremation as an option for their departed pet we can only provide contact information and ask that you make your own arrangements with the cremation service.
